

http://people.sc.fsu.edu/~pbeerli/Seminars/Seminars/UNIX_summer_course.html

**Inquire about the
course: Peter Beerli
beerli@fsu.edu**

Only administer as prescribed
abuse outside of seminar may
lead to UNIX and Python addiction
for which no remedy is known

Meeting schedule
Thursday, Friday Aug 24
and 25, 10am-noon, 2-4
in Dirac 152.

This course has no prerequisite
but may need new thinking and
follow instructions, the form of
the course is unclear and not
well defined yet.

We will learn about basic UNIX
commands and basic Python
commands to allow manipulation
of files and perhaps are able to
construct pipelines to transform
data from one format into another
